

Language Learning Reading Homework

HP5: Write a paragraph explaining why you think it is important to learn another language.

In my opinion, learning a foreign language is important because it can help you get a job in many industries for example Business Management and Administration. Knowing another language or multiple languages can be a unique talent among other candidates when you are being recruited for a job. In the modern world young people find learning other languages boring or hard which means that there isn't a lot of people actually knowing a different language so you can stand out from the crowd. Furthermore, bilinguals tend to have bigger brains, better memory, they are more creative and are better problem solvers therefore knowing foreign language can help you in learning more languages or anything. Bilingual people are also known for having the ability to multitask and switch between tasks so if you want to make a career which would involve multitasking, learning a foreign language would be important. In addition, if you have an ability to speak another language this could mean you have a chance of working for an international company and you would be able to travel to different countries and immerse yourself in the different cultures. An employer is looking for people who have unique talents and can work in different scenarios.

HP6: Research how to say 'How are you?' in 5 different languages.

Polish – Jak się masz?

German – Wie gehts?

French – Comment vas – tu?

Spanish – Cómo estás?

Italian – Come stai?
